Subject: maintenance dredge - WDFW

Hello Craig -

I just spoke with Laura Arber at WDFW and she confirmed that your HPA is good through January 30, 2011 for all maintenance dredging between now and then. You will still need to notify WDFW in advance of dredging. Please note that **after January 30, 2011 Ash Grove will need to reapply for a new HPA for the final dredging**, but as the JARPA will most likely still be a subset of the required City review materials this should require little additional effort on your or your consultant's part.

Our administrator will be putting your original hard-copy files in the mail today for your return (either certified USPS or a trackable shipper like FedEx) - I will include a copy of this e-mail attached to your HPA as a reminder.

So, one task down. Down onto the City and Corps. I doubt they will be quite so straightforward. Please feel free to call me with any questions.

Thanks,
Melora Shelton

Please Note Address Change to 2102 North 30th Street, Suite A as of May 14, 2007
Phone, fax, and e-mail remain the same. Thank you!
